

DONAU SOJA & EUROPE SOYA HARVEST 2021

715,000 TONS
11 COUNTRIES
10% MARKET SHARE

We are proud to announce that until today, Donau Soja & Europe Soya certified partners from **11 European countries** have reported a record sum of **715,000 tonnes** of certified soybeans from harvest 2021 in their storages.

10% of the total European non-GM harvest volumes are now under Donau Soja & Europe Soya certification.

Donau Soja & Europe Soya harvest volumes by storage location. Status as of January 2022

EVERY
PARTNER
COUNTS

Soybean processors certified under the Donau Soja & Europe Soya standard are vital when it comes to the distribution of processed soya products. The number of businesses committed to sustainable and traceable European production, is constantly growing. These companies offer **certified high-quality soya products** for animal feed or for human consumption. Their products are ranging from soybean meal, soya protein concentrates, press cake, toasted soybeans to oil or lecithin.

A
PROMISING
FUTURE

In the upcoming years even larger quantities of certified soybeans can be made available – thanks to Protein Partnership programmes and their supporters. **Protein Partnerships** can be seen as the European alternative to credits from overseas. By supporting local soya farmers in the main growing regions of South-Eastern Europe, retailers and major food brands make a valuable contribution to building up resilient supply chains from and for Europe.

DONAU SOJA & EUROPE SOYA IN FIGURES
