

# INVITATION TO EXCURSION

## From field to feed: A regional approach to pig nutrition

3 September 2025

On the day before the Donau Soja General Assembly, we warmly invite you to join us for an excursion to a family-run pig farming operation in the heart of the Austrian Weinviertel region.

### WHAT TO EXPECT

The Lackenbauer family – a dedicated farming family – will offer insights into their pig breeding and fattening operation. Their modern facilities are featured on the YouTube channel [Pigs might fly im Weinviertel](#) and in a documentary by the Austrian broadcast. The family will share their experience with regional soya feeding with Donau Soja, their own crop production and current challenges. Participants will receive a tour through their facilities. Drinks will be provided, and there will be plenty of time for discussion, questions, and professional exchange.

### Important remarks:

- Please arrive in fresh clothes and clean footwear.
- Protective clothing will be provided on-site before the farm tour.

We look forward to your participation and an open, respectful dialogue with the Lackenbauer family!

### LOGISTICS

Date: Wednesday, 3 September 2025

Location: Norbert & Lawrence Lackenbauer, Rennweg 20, 2170 Poysdorf, Austria
